³ Our Company has already settled 51 cases with workmen for an aggregate amount of Rs. 0.32 millions and the same are pending before the Court for judgment.

For details on the litigation proceedings and notices mentioned above, please refer to section titled “Outstanding Litigations and Material Development” on page 124 of Prospectus.

2. *We depend on third parties for significant portion of our sales and for management of our retail outlets. If these third parties do not continue to assist us in our retail store management and sales, our revenue could be adversely affected which would have an adverse effect on our business*

We operate our retail outlets under two models, company owned and franchisee managed (COFM) and franchisee owned and franchisee operated (FOFO). As on July 31, 2010 we have 143 outlets under first model i.e. COFM and 268 outlets under second model i.e. FOFO. We depend substantially on third parties that is franchisee for several critical elements of our business including retail outlets management/ operations and sales. There can be no assurance that we or these franchisees will be able to establish or maintain adequate sales capabilities, that we will be able to enter into arrangements/relationships with franchisees, in the areas we currently operate in or in areas we intend to expand, on financially acceptable terms or that any franchisees with whom we enter into such arrangements will be successful in selling or distributing our products. In the absence of these, our business could be negatively impacted. Additionally, if we are unable to maintain our relationships with our franchisees, then our ability to properly manage our retail outlets and generate revenues through the sale of our products could be negatively impacted.

3. Raw material including Fabric, which constitutes the largest portion of our material costs, is sourced from external suppliers. Fluctuation in the price, availability and quality of fabric could cause delay and increased cost

We depend on third party suppliers for the timely supply of fabric and other raw materials. Our main raw material fabric constitutes a significant part of our cost and total lead time. We have not entered into any long term agreement with Supplier(s) for our raw material requirement. The raw material cost as a percentage to total cost for the financial years ended March 31, 2010, 2009 and 2008 is as under:

(In million Rupees)

Particulars	March 31, 2010	March 31, 2009	March 31, 2008
Raw Material consumed	682.93	427.89	284.78
Total cost of goods sold	883.20	686.56	412.62
%age of raw material consumed to cost of goods sold	77.32	62.32	69.02

Any delay in supply or non conformity to quality requirements by our suppliers or fluctuations in the prices of the same can have a material adverse affect on our cost of goods sold and our ability to meet our customer's requirements. This may have an adverse affect on our margins and results of operations.

4. We outsource the manufacturing of major portion of our products and are therefore dependent on third parties

We depend on third party fabricators for performance of some of the processes in the apparel manufacturing which includes cutting, stitching and washing. We have at present arrangements with 73 fabricators / third party manufacturers in NCR region.

Particulars	2009-10		2008-09		2007-08	
	Quantity	% of Sales	Quantity	% of Sales	Quantity	% of Sales
In-house Production	1,129,625	30.80	784,805	29.01	501,595	36.95
Third Party fabricators	2,537,959	69.20	1,920,370	70.99	855,987	63.05
Total Quantity of Readymade Garments / Accessories sold	3,667,584	100.00	2,705,175	100.00	1,357,582	100.00

Any delay or failure on the part of these fabricators/ manufacturers to deliver the products in a timely manner or to meet our quality standards or unilateral termination of relationship by them may cause a material adverse affect on our business.

5. Our Company has had negative cash flows in recent fiscal years, as indicated in the table below:

(in Rs. millions)

Particulars	Year Ended Mar 31, 2010	Year Ended Mar 31, 2009	Year Ended Mar 31, 2008
Net cash generated from / (used in) operating activities	(83.63)	1.14	181.55
Net cash generated from / (used in) investing activities	(49.99)	(81.63)	(60.72)

Our operating cash flows have been negative mainly because of increase in our operations which have resulted in substantial increase in working capital required by us. We expect our operating expenses to continue to increase as we continue to grow. If we do not achieve positive cash flow, we cannot assure you that we will be able to sustain our growth or achieve profitability in future periods.

6. Our success depends upon our ability to manage the growth of our business. Inability to manage our growth can adversely affect our business and financial performance.

We have experienced high growth in recent years and a majority of our exclusive brand outlets have opened in the last two years. In financial year 2009-10 our total sales was Rs. 2,018.33 millions as

compared to total sales of Rs. 441.39 millions in the financial year 2006-07. The CAGR of our total sales over the last three fiscal years stood at 65.98%

We may not be able to sustain our growth or maintain a similar rate of growth in the future due to a variety of reasons including increased competition, inability to maintain high levels of product quality and customer satisfaction, inability to evolve new designs, inability to have long term relationship with our franchisees, non-availability of professionals with necessary skill sets, lack of management resources or due to a general slowdown in the economy. Any inability to manage our growth may have an adverse affect on our business and results of operations.

7. *We have issued Equity Shares in last twelve months and the price of such issuances is lower than the Issue Price*

We have issued certain Equity Shares to our Promoters, in the last twelve months, at a price lower than the Issue Price. Details of such issuances are in the table set out under the section titled "Capital Structure" on page 25 of this RHP.

8. *Our Promoters may have the ability to determine the outcome of any shareholder resolution.*

Our Promoter Group will continue to be the largest shareholders, holding 52.36% of post-issue equity capital of the company. As significant shareholders, our Promoters may have interests which may affect the interests of shareholders and /or our interests and may have the ability to determine the outcome of any shareholder resolution.

9. *We have not undertaken an independent appraisal for proposed fund requirement and the deployment of the proceeds of the issue.*

The funds being raised through the Issue are proposed to be used for setting up of new integrated manufacturing facility, expansion of exclusive brand outlets, working capital requirements and repayment of debt. The fund requirement is based on our management estimates' and has not been appraised by any bank/financial institution. These are based on current conditions. In view of the highly competitive nature of our industry we may have to revise our management estimates' from time to time and consequently our funding requirements may also change. This may result in the rescheduling of our project expenditure programmes or relocation of some of our exclusive brand outlets and an increase in our proposed expenditure for particular project and our results of operations may be adversely impacted.

10. *We have not placed order for civil construction and plant and machinery with regard to our project to set up a new manufacturing facility at Bahadurgarh, Haryana. In addition we have not entered with any definitive agreements / letter of intents for proposed exclusive brand outlets which we plan to set up. Any difficulties in entering into definitive and binding agreements in relation to deployment of proceeds of the issue may have a material adverse impact on our operations.*

The net proceeds of the issue are proposed to be utilised for setting up of new integrated manufacturing facility including purchase of land, plant and machinery, setting up of exclusive brand outlets, working capital requirements, general corporate purposes and repayment of debt as detailed in the section titled "Object of the Issue" on page 27 of this RHP. As on date though we have been allotted land by HSIIDC, we have yet to take possession of the land and place order for civil construction and for plant and machinery. Any difficulties in obtaining possession of land and timely construction of factories and supply of machinery and equipment may adversely affect the implementation of the project.

We have not entered into agreement / letter of intent for the proposed expansion of our exclusive brand outlets which we propose to fund from the proceeds of the issue. Non availability or delay in selection of retail space at the desired location may adversely affect our estimate of project cost. Further we have not identified the general corporate purposes for which we intend to utilize a portion of the net proceeds of the issue.

11. *There has been delay in implementation of the proposed projects for which funds are proposed to be raised through this Issue. This has resulted in increase in cost of our proposed integrated manufacturing facility. Any further delay is subject to risk of cost and time overrun.*

We have originally scheduled completion of the establishment of integrated manufacturing facility at Bahadurgarh, Haryana and commencement of Production in May 2011 from the proceeds of the Issue. Since there has been delay in bringing the proposed public Issue, there has been cost overrun by 1.24% in our proposed capital expenditure. We have to also revise the schedule of implementation. Any further delay in raising of resources from public issue may further delay our proposed project.

12. *We are solely dependent on third parties for the supply and transportation of our apparel from our warehouses to our exclusive brand outlets, which are subject to various uncertainties and risks*

We depend on road transportation to deliver our apparel from our warehouses to our exclusive brand outlets. We rely completely on third parties to provide such services. These transportation facilities may not be adequate to support our existing and future operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure or other events could impair our ability to supply our apparel to our customers. Any disruptions could materially and adversely affect our business, financial condition and results of operations.

13. *Our business and financial performance could be adversely affected if we are unable to maintain or improve our brand image*

We are retailing the apparels under the two brands namely “Cantabil” and “La FANSO” through a network of 411 exclusive retail outlets as on July 31, 2010. Our brand “Cantabil” has significantly contributed to the success of our business. We believe that our success depends on our ability to price the apparels reasonably and anticipate, identify and respond to changing fashion trends in a timely manner. If we are unable to respond in a timely and appropriate manner to changing consumer demand and fail to price our apparels reasonably, our brand name and brand image may be impaired and may result in a significant decrease in net sales or leave us with a substantial amount of unsold inventory. Our product must appeal to a broad range of consumers whose preferences cannot be predicted with certainty and are subject to rapid change. We may not be able to continue to develop appealing styles or successfully meet constantly changing consumer demands in the future. We cannot assure that our brands will be effective in attracting and growing our customer base.

14. *Our inability to identify evolving fashion trends and create new designs may adversely affect our business*

We are in the business of designing, manufacturing and retailing apparels. Any failure on our part to keep updated with the latest trends in the fashion industry may adversely affect our competitiveness and ability to deliver newer products to the target segment.

15. *We face competition from a number of other apparel manufacturers and retailers and any inability to compete with them could adversely impact our business and financial operations*

We face competition from other apparel brands present in the market and also new brands that may enter in the market in the future. Further the apparel manufacturing and retail industry is highly competitive and fragmented. The presence of Indian and International branded apparels in the marketplace has created tremendous competition in the apparel industry and the dynamics of industry are also changing, consequent to such structural changes. Important factors in our industry affecting competition include brand name, reliability, product quality, price and our ability to anticipate consumer demands and maintain appeal of products to customers. For details of other major players in branded apparel segment in India, please refer to page 55 of this Prospectus. If we are unable to compete successfully, we would lose our customers, which would negatively impact our sales and financial performance.

16. *We have a very high inventory of Rs. 1,199.59 million as on March 31, 2010. Any diminution in the value of inventories or high inventory may have a material adverse effect on our operating results and financial conditions.*

Apparel retail industry in India is highly working capital intensive. The larger number of stores requires us to maintain higher inventory to cater to our customer base at all times. We have entered into various franchisee agreements for operating our exclusive brand outlets. Except where goods are sold on outright basis, inventory at all the stores is owned by us and we carry the inventory in our

books till the sale of these goods to the end customers. Operating EBOs on this model requires us to maintain high level of inventory and is working capital intensive. High inventory or any diminution in the value of inventories will directly affect our financial condition and results of operations.

17. Majority of our retail outlets present and proposed are not on ownership basis but taken on contractual agreement basis. The non renewal of lease or any deficiency in the title/ ownership rights/ development rights of the owners may impede the operation of our outlets.

A majority of our retail outlets are not owned by us. We take property on lease which may not be renewed. The non renewal of lease or any deficiency in the title / ownership rights / of such third parties may lead to legal implications which can result in us having to vacate the premises or increase our cost of operations thus affecting our profits.

18. Our business is dependent on our manufacturing facilities which are located geographically in one area. The loss of or shutdown of operations at any of our manufacturing facilities may have an adverse effect on our business and results of operations

We are based in Delhi with all our in-house manufacturing facilities. As a result, if there is any localized social unrest, natural disaster or breakdown of services and utilities in Delhi, it may affect our business adversely.

Further our manufacturing activities are subject to operating risks, such as breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, lock-outs, non-availability of services of our external contractors, earthquakes and other natural disasters, industrial accidents etc. The occurrence of any of these risks could significantly affect our operating results.

19. Our registered office premises and manufacturing locations are not owned by us

We do not own the premises on which we have our registered office and other manufacturing units. We operate from leased premises. The lease agreements for facilities are renewable on mutual consent upon payment of such rates as stated in these agreements. If any of the owners of these premises do not renew the agreements under which we occupy the premises or renew such agreements on terms and conditions that are unfavorable to us, we may suffer a disruption in our operations which could have an adverse effect on our business, financial conditions and results of operations.

20. Our business is seasonal in nature as a substantial part of our sales are realized during second half of the financial year. Any substantial decrease in our sales during this period can have a material adverse affect on our financial performance

In recent past, approximately 65% of sales were realized in the second half of the financial year. This trend is largely due to increased sales in the second half on account of festivals and winter sales. Any substantial decrease in sales in the second half of the year could have a material adverse affect on our financial condition and results of operations.

21. We have outstanding unsecured loans from our Promoter / Promoter Group Companies which are re-payable on demand. Re-payment of these loans, if called at short notice, may affect our cash flows to such extent

As on March 31, 2010, we have unsecured loans amounting to Rs. 13.70 millions, which are from Promoter / Promoter Group entities. The said loans do not carry any rate of interest and are repayable on demand. However we do not foresee that the loans may be called for re-payment at a short notice. For further details please refer to section titled "Financial Statements - Unsecured Loan" on page 109 of the Prospectus.

22. Our growth strategy to expand into new geographic areas exposes us to certain risks

We intend to expand our presence both geographically and in terms of number of exclusive brand outlets. Fast developing smaller towns are currently under served and give a scope for our brands. We intend to focus to have atleast 20% of our upcoming outlets in tier II cities and towns. Further, we plan to expand in southern and eastern India. As on July 31, 2010, only 15.09% of our exclusive brand outlets are in southern and eastern India. The details of our geographical presence in India are as under:

Area	Total	
	No. of stores	%age
North	230	55.96
East	38	9.25
West	113	27.49
South	24	5.84
Central	6	1.46
Total	411	100.00

Pursuance of such a growth strategy may expose us to risks which may arise due to lack of familiarity with the development, ownership and management of retail business in these regions and towns and the customer preferences in such areas. We may also face challenge in view of our lack of understanding/ economic conditions and culture of these areas. If we are not able to manage the risk of such expansion it could have a material adverse affect on our operations.

23. We will have to find locations to open and operate exclusive brand outlets.

We sell apparels and accessories through exclusive brand outlets. Success of any retail business is highly dependent on optimizing retail locations at a competitive cost. Our Company has to compete with other branded apparel retailers to book locations for our exclusive brand outlets on a continuous basis. If we are not able to book / find the locations at the time and place that we desire, the same may have a material adverse impact on our results of operation.

We have a team headed by our director Mr. Deepak Bansal, which is dedicated towards finding locations and franchises who may be interested in opening exclusive brand outlets for our brands “Cantabil” or “La FANSO”.

24. Our success depends upon our ability to retain the Key Management and other personnel

Our success depends on the expertise, experience and continued efforts of our directors, including our promoters, and our key managerial personnel. Our future performance may be affected by any disruptions in the continued service of these persons. Any cause leading to loss of service of any of them could seriously impact our ability to continue to manage and expand our business, thus adversely affecting our operations and financial condition.

There is a dearth of talent, including key managerial personnel, with related business experience. In the event we are not be able to attract a high degree of talented employees, or experience higher attrition levels which are largely out of our control or are unable to motivate and retain our existing employees, the future of our business and operations may be affected.

25. We have applied for registration of certain Intellectual Property Rights in the name of our Company. If our application for such registration are not approved our brand building exercise could be affected.

Our intellectual properties consist of trademarks and copyrights. Most of our trademarks including Cantabil and La FANSO are registered in the name of Kapish Products Private Limited since these registrations were procured before the merger and change in name of our Company. However, we have applied for amending the registration to reflect our company as a proprietor of these trade marks. Further our applications for registration of trademarks of Kaneston and logo of La FANSO, Cantabil International Clothing Italy and Pyramid are pending with the registrar of trademarks. We cannot give guarantee that any of our pending applications will be approved by the appropriate authorities. If our application for such registration are not approved our brand building exercise could be affected. For details of our trademarks and copyrights registration please refer to section titled “Government and Other Approvals” on page 139 of this RHP.

26. Our insurance coverage may not adequately protect us against certain operating hazards and this may have an adverse affect on our business operations.

Our insurance coverage is likely to cover all normal risks associated with the operation of our business but there can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flow may be adversely affected.

27. We face the risk of potential liabilities from lawsuits or claims by customers.

We face the risk of legal proceedings and claims being brought against us by our customers for any defective product sold or any deficiency in our services to them. We could face liabilities should our customers face any loss or damage due to unforeseen incident such as fire, accident, etc. in our exclusive brand outlets, which could cause financial and other damage to our customers.

28. We are yet to receive or renew certain approvals or licenses required in the ordinary course of business, and the failure to obtain them in a timely manner or at all may adversely affect our operations.

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We have made renewal applications for the same, but are yet to receive, certain approvals that have expired, or that are required for our business. Further in few cases, we are in the process of submitting the required application. For details of the same, see section titled "Government and Other Approvals", on page 139 of this RHP. If we fail to obtain the necessary approvals required by us to undertake our business, the same may adversely affect the growth of our business. Further, in the event there is any delay in getting the necessary approvals, the costs associated with developing our business may increase which could affect our financial performance.

29. We may be subject to restrictive covenants, including restriction on raising of further capital or to pay dividend, under term loans and working capital facilities provided to us by our lender(s).

We have availed of several loans and financial facilities from various banks Axis Bank Limited and Standard Chartered Bank. In respect of various agreements entered into by our Company with our Lenders and sanction letters issued by our Lenders to us, we are bound by certain restrictive covenants regarding capital structure and other general restrictive covenants. The restrictive covenants as imposed by the lenders on our Company are as under:

"Our Company shall not with prior approval of the Bank in writing avail any loan (secured or unsecured) from any bank / financial institution / otherwise, undertake any guarantee obligation on behalf of any other borrower, grant loan to Promoters / associates and other companies, diversify / change the line of business, change the Ownership / Management / Capital structure, dilute shareholding of the Promoters, issue further capital either by equity or debt, distribute profits / pay dividend, formulate any scheme of re-structuring or amalgamation and withdrawal of money by the Promoters, Directors and their friends and relatives."

EXTERNAL RISK FACTORS

1. Any changes in the regulatory framework could adversely affect our operations and growth prospects

We are subject to various regulations and policies. For details see section titled “Key Industry Regulations” on page 66 of this RHP. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws,

policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that we will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

2. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse affects on our operations and financial performance.*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

3. *Regional or International hostilities, terrorist attack or other acts of violence of war could have a significant adverse impact on international or Indian financial markets or economic conditions or on Government Policy. Such incidents could also create a greater perception that investment in Indian Companies involves a higher degree of risk and could have an adverse impact on our business and on the market price of our company's equity shares.*

4. *An economic downturn may negatively impact our company's operating results.*

Our revenues are dependent on retailing of apparels to our customers. Any economic slowdown may affect the spending power of our customers restricting their expenditures. In an economic slowdown our customers may reduce or postpone their purchases, thereby negatively impacting our revenue and profitability.

5. *We depend on banks and financial institutions and other sources for meeting our short and medium term financial requirements.*

Any delay in the disbursement of funds from these bodies can be a bottleneck to our project execution capabilities and thereby our results of operations.

6. *Investors will not receive the Equity shares purchased in this issue until several days after they have paid for them, which will subject them to market risk.*

The Equity Shares purchased in this issue will not be credited to investor's demat account with depository participants until approximately 10 working days from the Bid / Issue closing date. Investors can start trading only after receipt of listing and trading approvals in respect of these Equity Shares which will require additional time after the credit of Equity shares into Investors demat account. Further, there can be no assurance that the equity Shares allocated will be credited to investor's demat account, or that the trading in the equity shares will commence, within the time periods specified above.

7. *An active market for the Equity shares may not develop which may cause the price of the equity shares to fall and may limit investor's ability to sell the Equity Shares.*

The Equity Shares are new issues of securities for which there is currently no trading market. Applications have been made to the BSE and NSE for the Equity Shares to be admitted to trading on the BSE and NSE. No assurance can be given that an active trading market for the equity shares will develop or as to the liquidity or sustainability of any such market, the ability of the holders of the Equity Shares to sell their Equity Shares or the price at which share holders will be able to sell their Equity Shares if an active market for the Equity Shares fail to develop or be sustain, the Trading price of the Equity Shares could fall. If an active trading market were to develop, the Equity Shares could trade at price that could be lower than the original Equity price of the issue.

8. *The market value of the Equity Shares may fluctuate due to the volatility of the securities markets.*

The securities markets are volatile and stock exchanges have in the past, experienced substantial fluctuations in the prices of listed securities. The stock exchanges have experienced problems, which, if these were to continue or recur, could affect the market price and liquidity of the securities of Indian

Companies, including the Equity Shares. The governing bodies of the various Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, time to time disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on the market sentiment.

9. Shareholders will bear the risk of fluctuation in the price of Equity Shares.

The market price of the Equity shares may be affected by fluctuations in the stock markets and it is impossible to predict whether the price of the Equity Shares will rise or fall. Trading prices of the Equity Shares will be influenced by, among other things, our financial position, the results of operations and political, economic, financial and other factors.

10. Future issues or sales of equity Shares of our company may significantly affect the trading price of the Equity Shares.

Future issue of Equity Shares / convertible instruments by our company or the disposal of Equity Shares by any of the major shareholders or the perception that such issues or sales may occur may significantly affect trading price of the Equity Shares. OUR STRENGTHS

We believe that the following are our principal competitive strengths, which differentiate us from other players in the apparel manufacturing and retailing industry:

Our promoters have over 21 years of experience in this field and understand the consumers' needs.

Strong In-House Design & Research Team

Our design team understands that the design does not cover only the material product, but also creates an effect that is usually socio economic in nature. At ours, each season starts with "idea-seeds" that are planted in trials and proposals. The design and programming of product is carried out by the merchandising and designing department headed by our Director, Ms Swati Gupta, who is a NIFT graduate. We also have a team of professional designers recruited through renowned fashion institutions for understanding the colour, design and fashion forecasts for the fashion industry

Illustration of Book Building and Price Discovery Process

(Investors should note that the following is solely for the purpose of illustration and is not specific to the Issue)

The Bidders (excluding the ASBA Bidders who can only Bid at Cut-off Price) can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 60 to Rs. 72 per Equity Share, Issue size of 5,400 Equity Shares and receipt of five Bids from the Bidders. A graphical representation of the consolidated demand and price would be made available at the website of the BSE (www.bseindia.com) and NSE (www.nseindia.com) during the bidding period. The illustrative book as set forth below shows the demand for the Equity Shares of our Company at various prices and is collated from Bids from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Quantity	Subscription
1,500	72	1,500	27.78%
3,000	69	4,500	83.33%
4,500	66	9,000	166.67%
6,000	63	15,000	277.78%
7,500	60	22,500	416.67%

The price discovery is a function of demand at various prices. The highest price at which our Company is able to issue the desired quantity of Equity Shares is the price at which the book cuts off, i.e., Rs.66 in the above example. Our Company, in consultation with the BRLM will finalize the Issue Price at or below such cut off price, i.e., at or below Rs.66. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken for bidding:

1. Check eligibility for bidding (see the section titled “Offering Information - Who Can Bid” on page 157 of this Prospectus);
2. Ensure that the Bidder has a demat account and the demat account details are correctly mentioned in the Bid-cum-Application Form;
3. Except for Bids on behalf of the Central or State Government, residents of Sikkim and the officials appointed by the courts, for Bids of all values ensure that you have mentioned your Permanent Account Number (“PAN”) allotted under the I.T. Act in the Bid cum Application Form and the ASBA Bid cum Application Form (see “Offering Information – ‘PAN’ or ‘GIR’ Number” on page 168);
4. Ensure that the Bid-cum-Application Form is duly completed as per instructions given in this Prospectus and in the Bid-cum-Application Form.
5. The Bidder should ensure the correctness of his or her Demographic Details (as defined in the section “Offering Information - Bidder’s Depository Account and Bank Account Details” on page 164 given in the Bid cum Application Form vis-à-vis those with his or her Depository Participant).
6. Bids by ASBA Bidders will only have to be submitted to the SCSB. ASBA Bidders should ensure that their bank accounts have adequate credit balance at the time of submission to the SCSB to ensure that their Bid cum ASBA Form is not rejected.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the BRLM, reserves the right not to proceed with the Issue any time after the Bid Opening Date but before Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two Working Days of the Bid Closing Date, providing reasons for not proceeding with the Issue. The BRLM, through the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the day of receipt of such notification. Our Company shall also inform the Stock Exchanges on which the Equity Shares are proposed to be listed.

Notwithstanding the foregoing, the Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for only after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC.

Subject to compliance with the immediately preceding sentence, the floor of the Price band can move up or down to the extent of 20% of the floor of the price band.

In case of revision in the Price Band, the Bidding / Issue Period will be extended for three working days after revision of Price Band subject to the Bidding/Issue Period not exceeding 10 working days. Any revision in the Price Band and the revised Bidding / Issue Period, if applicable, will be widely disseminated by notification to the BSE and the NSE, by issuing a press release, and also by indicating the change on the web sites of the BRLM and at the terminals of the Syndicate.

Growth Drivers for Retail Apparel Industry

Expansion of Ready-to-Wear Market

The market for readymade segment is rapidly expanding in India especially in menswear section. The preference of Indian consumers has also undergone a major shift as they just prefer to go out and buy rather than opting for stitching.

Rising Urbanization

Urbanization is a trend that everyone has to contend with. The urban population is set to increase up to 42% by 2030 according to census figures. This is due to the fact that people migrate to cities to look for better job opportunities and living standards. Therefore, organized retail is set to witness a major expansion to fulfill the needs of growing population.

Demographic Structure

India is home to 17% of the world’s population. Being one of the youngest countries in the world, it is tipped to have one of the largest work forces for years to come. At 24 years, it has the lowest median age of population in the world, with 50% of the population less than 25 years and 70% less than 35 years of age. Also, as more and more women become part of the workforce, the demand for women wear including accessories is set for expansion.

Growing Prosperity

India has the second largest working population with approx 700 million people between 20-60 years of age. In addition, corporate salaries have grown at 14% p.a. which is fastest globally. Also, the salaries for freshers have gone up by 2-3 times over the last decade. These all factors contribute to increasing disposable incomes in the hands of individuals. With a consumption rate of around 34%, the appetite for high value branded products is ever increasing.

Source: Economic Survey 2009-10

The per capita income has more than doubled from the start of this decade. This again indicates the rising consumerism among the Indians at general level.

Increased brand consciousness

A consumer generally perceives wearing brands as a fashion statement and a recognition. One of the major reasons for the increased brands consciousness is the young population of India.

Changing Consumer Lifestyle and Preferences

Indian consumer has become more demanding, as a result, there is a continuous shift in the demand pattern from basic necessities to spending on the lifestyle products and service, largely because of:

- Higher Income levels
- Increasing knowledge and awareness levels
- Higher adaptability to technology
- Greater participation of women and children in household decision making
- Increasing demand for better products and service experience

Success Mantra/Factors

Innovation

The companies need to reinvent themselves and offer something new, different and vibrant to the consumers. To keep their consumers interested, the companies need to evolve options constantly and keep in line with the changing trends. The company needs to come up with new designs and detailing to meet their targeted goals.

Consistency

Continue to meet expectations of the consumers' everytime they shop. Not just in terms of quality but also in terms of intricate details such as consistency in sizing and fabric sustainability, branding, and packaging. The key is to determine what your consumer expects from you and you deliver your promise everytime your consumer comes to you.

Keeping that Edge

One of the main reasons brands fall off track is that they loose sight of their consumers and become tired and boring in the eyes of their shoppers. The companies should stay ahead of what their consumers want.

Brand Positioning

The brands particularly in apparel industry need to be very particular and must reinforce the message that is unique to companies' label. This consistency must exist across all communication channels from the web to outlets to catalogues and other media. The consumer should be an extension of the message. Your brand must be able to break through geographical, cultural and demographic defenses and should be flexible and evolutionary.

Keep your sales team informed

The associates who sell your brand to the customers must be well versed with your branding message and also be effective in their soft skills. They should be able to help consumers make smart choices about what they buy. This can go a long way in establishing trust and loyalty for a brand.

Quality

Use quality to differentiate from competitors. There are quality tools that can help determine specific consumer requirements and competitors' capability.

Key Challenges

Decrease in Footfalls

Global recession has had an impact on the overall Indian sentiments as well. The footfalls in the malls and showrooms have declined. Although Indian economy is now showing signs of recovery, it will take some more time to fully recuperate from such a crisis. Till the time conditions become more stable, the apparel industry may face some tough time ahead.

Real Estate Costs

Realty costs in India have leapfrogged over the last few years. Although, there has been a correction, still the rates are high. Therefore, the retailers have to contend with high fixed costs and if they witness lower footfalls, the overall apparel market would impede.

Shortage of Skilled Manpower

There is a critical gap facing the retail industry in respect of availability of personnel with right skill-sets. The labour laws in India are also stringent. This may lead to serious impediments in expansion plans or poaching for trained manpower. Some steps have been taken to reduce this gap like on-the-job training or setting up of specialized institutions catering to elusive requirements of retail industry. However, still the gap has not been able to bridge.

Supply Chain Issues

There are serious supply chain issues hindering the growth of retail industry. It has been plagued with inefficiencies in transportation, inventory management, procurement and IT systems. This all lead higher logistics costs for the retailers and thereby lower margins.

OUR STRENGTHS

We believe that the following are our principal competitive strengths, which differentiate us from other players in the apparel manufacturing and retailing industry:

Value Proposition and Understanding the Consumers

Consumers are looking at seeking value on all that they purchase, especially in tougher times. They want to seek that extra value/ benefits at no extra cost as compared to what they have been used to, whether in

terms of product attribute, styling or services. Understanding the customer is one of the most important skills required to be successful in our business. Our branded apparels are based on innovative designs relevant to Indian taste. Our promoters have over 21 years of experience in this field and understand the consumers' needs.

Strong In-House Design & Research Team

Our design team understands that the design does not cover only the material product, but also creates an effect that is usually socio economic in nature. At ours, each season starts with "idea-seeds" that are planted in trials and proposals. The design and programming of product is carried out by the merchandising and designing department headed by our Director, Ms Swati Gupta, who is a NIFT graduate. We also have a team of professional designers recruited through renowned fashion institutions for understanding the colour, design and fashion forecasts for the fashion industry

Exclusive Brand Outlets

We operate on a model of marketing our apparels directly to consumers through a chain of EBOs of our brands "Cantabil" and La FANSO". In-house integrated Capacity

We are an integrated apparel manufacturing and retail company with in-house capabilities for designing, sourcing of fabric and garment accessories, manufacturing and retailing of apparels. Our core competency lies in our designing and stringent quality control. Strong IT Infrastructure

We have successfully managed our growth by investing in infrastructure, including human and IT infrastructure. We being an apparel manufacturer and retailer understand that the key to succeed in the long

term is to invest in software. We use specially-designed software to maintain our sales, records and outlet inventories. All daily transactions at our outlets are updated through pooling of incremental data of transactions. Our head office thus maintains full control on all the stocks and sales on a daily basis. We are using Wizapp3S and SQL software to keep track of our retail operations and help in inventory control.

We also have a system wherein customers if find any defects in our garments can replace them within 15 days of the purchase. We, therefore, never compromise and are fully committed to providing only quality products.

OUR GROWTH STRATEGIES

Enhance our presence across pan India

We intend to expand our presence both geographically and in terms of number of exclusive brand outlets. Fast developing smaller towns are currently under-served and there is a huge scope for our brands. We plan to have atleast 20% of our upcoming outlets in Tier II cities and towns. We have a strong foothold in Northern and Western India which we want to consolidate further and intend to expand in southern and eastern India. We also seek to increase our business with our existing customers by offering them apparels that are in line with latest fashion trends at affordable prices. Strengthening our brands

We intend to invest in developing and enhancing recognition of our brands, through brand building efforts, communication and promotional initiatives such as advertisements in print media, hoardings, televisions, organizing events, participation in industry events, public relations and investor relations efforts. We will continue to sponsor/ participate at fashion shows and trade seminars.

Maintain Our Focus on Long-term Relationships

We as a Company follow a policy whereby we focus on building long term sustainable relationships with all the parties involved, be it suppliers, franchisees or customers. Most of our agreements with franchisees or lease deeds are on long term basis with an option to further extend the agreement as per the mutually agreed terms and conditions. We believe that there are significant business opportunities for additional growth with our existing customers as we diversify our product portfolio. Also, to further strengthen relations with our customers, we are considering to launch loyalty-based cards.

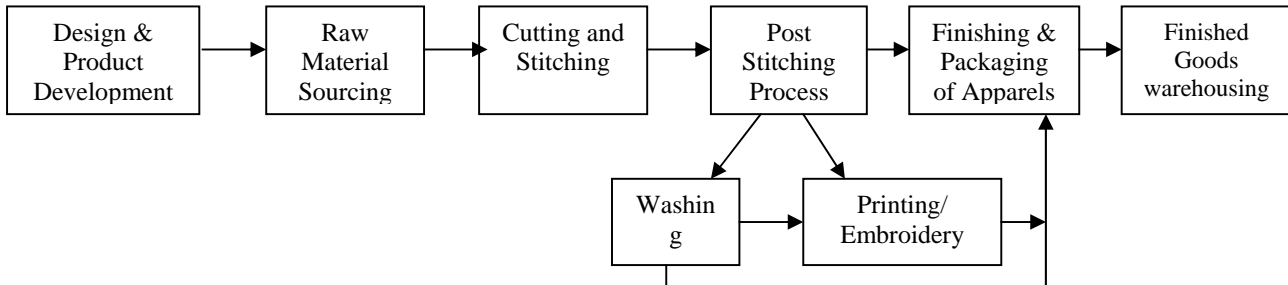

Enhancing manufacturing capacities

We are focusing to reinforce and increase our in-house manufacturing capabilities as it will decrease our dependence on third party fabricators and enable us to have better control on the quality of the apparel and the cost of manufacturing. At present we outsource washing from third parties. We are now setting-up a washing plant at Sonipat Industrial area, Haryana in order to be self sufficient in washing process. As of July 31, 2010 we have in-house manufacturing capacity of 1,300,000 pieces of apparels per annum. We are planning to set up a new integrated manufacturing facility at 12,150 sq mtr land allotted at Industrial Area, Bahadurgarh, Haryana by HSIIDC. For more information of our proposed expansion project, please see section titled "Object of the issue" on page 27 of this RHP.

Continue to invest in human resources and IT infrastructure

We believe that we have managed growth on the back of our infrastructure, which ensured quality and timely delivery. We will continue to invest in infrastructure, including human resources, to meet our growing needs. We plan to maintain the quality of our human resources and to continuously upgrade and benchmark our HR practices. We also plan to further strengthen IT support by installing latest software to integrate and keep track of our growing business.

OUR MANUFACTURING PROCESSES

Design and Product Development

Design plays the prominent role in changing perceptions and making an image. Based on nature of customer profile, a direction is developed and a strategy for implementation is created. This is the prime feature of our business model which involves conceptualization of the trend, choice of fabric, color, type of accessories and designing the look of the product and other details. The process is started well in advance prior to the actual season when the apparels are intended to be retailed. Our designing team is regularly engaged in research of new designs and latest trends. Our team also attends various international fashion events and seminars to have knowledge of latest happenings in the world of fashion.

Raw Material Sourcing

Fabric and other accessories such as zips, buttons, thread, tags, labels etc are our main raw materials. The procurement of right fabric which is the dominant raw material is one of the most critical aspects in manufacturing of apparels. The raw material is sourced from various sources including directly from mills, wholesalers and importers. We have a team of experienced professionals headed by our Managing Director Mr. Vijay Bansal who decides the procurement of raw material. The ready fabric takes an average time of 15 days for delivery. However, for programmed fabric, it normally takes 1-3 months depending on the process involved and availability of resources.

Fabric Checking

After selecting the fabric, quality checks are conducted so as to ensure that the fabric procured confirm to our requirements and specifications. This is done with aid of machines that helps to visualize the extent of damage/ waste in the fabrics. Beside the fabric, the accessories are also thoroughly checked for defects and damages.

Fabric Cutting and Stitching

The next step in our manufacturing process involves fabric cutting in case of in-house production or fabric issue in case of outsourced to third parties. We make use of various machines such as power cutting machines. To detect any defects at this stage including any weaving defects, we follow a procedure named "Laying of Fabric on Cutting Table" and thereby maintain high quality standards. The different parts of the apparel are now stickered for the purpose of identification for size and shade.

After the fabric is cut, the stitching is carried out either in-house at our manufacturing facilities at Lawrence Road, Delhi or outsourced to dedicated fabricators which work exclusively for us. Also main accessories like collars, cuffs, buttons and zips etc are fixed. The stitching is carried out by skilled personnel and specialists who backed by high-end machinery ensure high productivity and better quality output. As we manufacture a wide range of apparel, we use various kinds of machines for different processes.

Washing

Washing is a crucial step to give fabric especially denim a very different and lively feel. Washing basically involves applying chemical processes on the garments. The apparels are washed and treated in high capacity washing machines and hydro water expellers are used to drain the water from the apparel

thereafter the apparels are dried. At present, this function is outsourced to washers on account of pollution-related matters. However, to reduce the dependence on third parties we are setting-up our own plant at Sonipat, Haryana.

Printing / Embroidery Job

This process is carried out to enhance a product's features to make it more appealing to a customer. It involves doing embroidery work on the shirts, tops or denims and also come out with prints on the shirts, t-shirts and tops.

Finishing and Packaging

After completion of the washing and/ or printing process the apparels undergo finishing and thereafter packaging. The finishing process also involves excess thread removal, customized ironing, tagging etc. This process is carried out at our in-house facilities. After finishing, labeling exercise is undertaken this includes attaching of labels having details about the product, size and price. Post this, the apparel is properly packed and is ready to be shipped to our warehouses for final delivery. The garments are firstly packed individually and then packaged into different boxes according to the size, design and article number of the garments. From here, we dispatch the goods to various locations as per the requirements. We ensure that apparel that is dispatched to warehouse has undergone all quality checks.

Third Party Fabricators and Outsourcing

To meet the demand for our brands, we also outsource the manufacturing of apparels and they directly deliver the product at our warehouses. However the fabric is sourced and provided by us. The fabricator cuts and stitches the fabric as per instruction and designs given by our company. We have arrangements with 73 fabricators who work for our company on job work basis. Among these fabricators we have arrangement with three fabricators who are completely dedicated to manufacture apparels for us. The details of those three dedicated third party fabricators are given below:

M/S Vinay Enterprises: Category III, Shed No. 15, DSIDC Complex, Rohtak Road, Nangloi, Delhi-110041

M/S Fashion Apparels: WZ-272, Shakurpur, Delhi-110034

M/S Bansal Enterprises: Category II, Shed No. 15, DSIDC Complex, Rohtak Road, Nangloi, Delhi-110041

We also outsource woolen garments and accessories like belts, ties, socks and handkerchiefs. The woolen garments are generally outsourced from manufacturers in Ludhiana and other accessories from Delhi and other cities. Our design and creative team decide the designs and approves the sample first as per our requirements and thereafter the purchase orders are issued.

Distribution and Marketing

For the purpose of distribution, apparels packaging is arranged in accordance with the locations of our outlets where they have to send to. Here our marketing team decides as to which product has to reach which destination based on the demand of products. The marketing team also monitors the trend in the retail space and coordinates on the same with our product development department. The retailing plan is supported with a detailed logistic plan so that merchandise flows directly from the warehouse to the right outlets in a timely and cost efficient manner. Our team monitors the level of stock across all the outlets. We have centralized computerized system to know, analyze and store the inventory and sales of each outlet every day. We have a strong distribution and marketing team of 821 persons who are spread across the country.

Our brand is designed for Indian taste and reflects contemporary orientation and style. We use a range of tools to promote both the brands. We position our brands with innovative marketing and advertising campaigns through newspaper, other print media, hoardings, banners, magazines and also through event sponsorships including fashion shows.

The Act also regulates the working hours, leave, holidays, overtime, employment of children, women and young persons etc. The Factories Act is applicable to all ‘factories’.

2. The Delhi Municipal Corporation Act, 1957

The Delhi Municipal Corporation Act, 1957 (“DMC Act”) is enacted to streamline orderly growth of industries in the state of Delhi. Provisions of the DMC Act are implemented to minimize the nuisance, health hazard and pollution in the NCT of Delhi as per the broad norms laid down in the Master Plan of Delhi & Pollution Control Committee, G.N.C.T.D., and as per directions / judgments delivered by the Supreme Court of India.

3. Compliances under the provisions of various Pollution Control Laws

India has a comprehensive environmental protection legal framework comprising three major statutes viz:

- a. The Water (Prevention and Control of Pollution) Act, 1974;
- b. The Air (Prevention and Control of Pollution) Act, 1981; and
- c. The Environment Protection Act, 1986

In order to achieve the objectives of control, and to abate and prevent pollution, Pollution Control Boards (“PCBs”) vested with diverse powers have been set up in each state.

Any establishment intending to operate a factory or manufacturing facility in India is required to obtain prior permission/consent from the appropriate State Pollution Control Board before operating any such unit or factory.

The approvals /permissions as obtained from the State Pollution Control Board are for the specified period and are required to be renewed from time to time.

4. Registration under Contract Labour (Regulation & Abolition) Act, 1970

The Contract Labour (Regulation and Abolition) Act, 1970 (“CLA Act”) is applicable to every establishment in which twenty or more workmen are employed directly or indirectly, on any day in the preceding twelve months as contract labour. The CLA Act aims to abolish the system of contract labour wherever possible and practicable and in other cases to regulate the working conditions of the contract labour so as to ensure timely payment of wages and provision of essential amenities.

Every establishment covered by CLA Act, if it wants to engage twenty or more persons through a contractor has to get itself registered. CLA Act lays down that every principal employer of an establishment to which CLA Act applies shall make an application to the registering officer in the prescribed manner for registration of the establishment. Likewise, every contractor, to whom the CLA Act applies, is also required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. To ensure the welfare and health of the contract labour, the CLA Act imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLA

Act. It is also important to note that in case the contractor fails to pay statutory dues to its contract labour, the company may then be held responsible to clear such dues in the capacity as principal employer.

5. Registration under Sales Tax Laws/Value Added Tax

VALUE ADDED TAX:

Every State/Union Territory in India has its own Value Added Tax ('VAT') Act. The taxable event which attracts the levy of VAT is the sale of goods within a particular State by a dealer.

Registration under the VAT Act is of two types – mandatory and voluntary. Mandatory registration is required when the turnover of the dealer exceeds the threshold limit prescribed in the particular VAT Act of the concerned State.

The other type of registration which is envisaged is voluntary registration. In such a situation, the dealer can get himself registered at any time under the provisions of the VAT Act irrespective of its turnover.

CENTRAL SALES TAX

As stated above, VAT is chargeable when a local sale is effected by a dealer. However, in cases where the dealer effects an inter-state sale i.e. a sale where the movement of goods commences in one State and delivery of the goods is made in another State, the dealer effecting such sale is required to charge Central Sales Tax ('CST') on the price of the goods being sold.

Registration under the CST Act is required in case an inter-State sale (even one sale is enough to attract the provisions of CST) is effected by a dealer irrespective of the price at which the same is effected.

6. Income Tax Act, 1961

The Company is required to obtain the PAN and TAN as per the requirement of the Income Tax Act, 1961.

Permanent Account Number (PAN) is a ten-digit alphanumeric number issued by the Income Tax Department, Government of India. All assesses or taxpayers or persons, who are required to furnish a return of income, must obtain PAN. It is mandatory to quote PAN on return of income.

TAN or Tax Deduction Account Number is a 10 digit alphanumeric number required to be obtained by all persons who are responsible for deducting or collecting tax. It is compulsory to quote TAN in withholding tax return, payment challans and withholding tax certificates.

7. Indian Boiler Act, 1923

The Indian Boilers Act, 1923 was enacted with the objective to provide mainly for the safety of life and property of persons from the danger of explosions of steam boilers and for achieving uniformity in registration and inspection during operation and maintenance of boilers in India. "Steam Boiler" means any closed vessel exceeding 22.75 litres which is used exclusively for generating steam under pressure and includes any mountings and other fittings attached to such vessel which is wholly or partly under pressure when steam is shut off. In the last 10 years, "CANTABIL" has become a complete family wear brand with addition of women's wear segment in 2007 and Kidswear segment in 2008. Sales from Cantabil brand has increased from Rs 1,138.27 million in fiscal year 2008-09 representing 82.91% of our total sales to Rs. 1,603.83 million in fiscal year 2009-10 representing 79.46% of our total sales in 2009-10. Presently we have 3 in-house manufacturing / finishing units and 4 warehouses located in Delhi. We also have 3 third party dedicated units manufacturing exclusively for us. We have fabricating arrangements with 73 manufacturing units to which we outsource cutting and stitching. Our manufacturing and finishing facilities are sufficiently backed by facilities for product development, design, fabric testing to ensure quality apparels for our customers. We are setting up a garment washing and finishing unit at Sonipat, Haryana, which is under advance stage of implementation and is slated to start operation by end of December 2010. In order to meet our growth plans and to reduce our dependence on third party fabricators, we are proposing to set up a large integrated manufacturing facility at Bahadurgarh, Haryana. For details of our proposed project, see the section titled "Object to the Issue" on page 27 of this RHP.

OUR STRENGTHS

We believe that the following are our principal competitive strengths, which differentiate us from other players in the apparel manufacturing and retailing industry:

Value Proposition and Understanding the Consumers

Consumers are looking at seeking value on all that they purchase, especially in tougher times. They want to seek that extra value/ benefits at no extra cost as compared to what they have been used to, whether in terms of product attribute, styling or services. Understanding the customer is one of the most important skills required to be successful in our business. Our branded apparels are based on innovative designs relevant to Indian taste. Our promoters have over 21 years of experience in this field and understand the consumers' needs.

Strong In-House Design & Research Team

Our design team understands that the design does not cover only the material product, but also creates an effect that is usually socio economic in nature. At ours, each season starts with "idea-seeds" that are planted

in trials and proposals. The design and programming of product is carried out by the merchandising and designing department headed by our Director, Ms Swati Gupta, who is a NIFT graduate. We also have a team of professional designers recruited through renowned fashion institutions for understanding the colour, design and fashion forecasts for the fashion industry

Exclusive Brand Outlets

We operate on a model of marketing our apparels directly to consumers through a chain of EBOs of our brands “Cantabil” and La FANSO”. We focus our strategies and efforts to provide quality apparels at affordable price. We promote and position our brands with innovative marketing and advertising campaign. This business model enables our Company to reach directly to our customers and understand their needs and requirements. EBOs help us in establishment of brand recall value with the customers. We have developed a wide network of exclusive brand outlets across metros, tier I and tier II cities in India.

Personal Relationship at the Outlet Floor

We have experienced that improved customer service provides a tremendous boost to sales. Handing over the decision making in customer service to our outlet managers have empowered them to understand the customer better and address their needs and woo them in order to increase brand retention.

Apparel range catering to wide customer base

We manufacture and market apparels ranging from sophisticated formalwear and party-wear to casuals, ultracasuals and contemporary clothing for Men’s and formalwear and casual range for women and kids. Our apparel portfolio ranges from shirts, tops, trousers, suits, blazers, denims, T-shirts, pullovers, jackets, shorts, cargos and accessories like caps, belts, ties, socks etc. Majority of the products of our Company are targeted towards the customers in the age group from 20 - 45 years, which comprises 36,3% of the Indian population besides we are also expanding our Kidswear range for kids between 5-14 years who constitute 24.6% of the total population.

In-house integrated Capacity

We are an integrated apparel manufacturing and retail company with in-house capabilities for designing, sourcing of fabric and garment accessories, manufacturing and retailing of apparels. Our core competency lies in our designing and stringent quality control. We have a centralized purchasing system for sourcing of fabric directly from mills or from suppliers which helps us to reduce cost of inputs and maintain quality of fabrics.

Strong Management Team with Industry Specific Experience

We have strong management team with many years of hands on experience in the apparel industry. Our promoter directors Mr Vijay Bansal and Mr Deepak Bansal have an extensive experience in apparel and garment accessories industry. This understanding helps our top management in taking appropriate decisions.

We have also created a team of managers in the second layers below top management. We strongly believe in regularly training our managerial and supervisory staff in their respective jobs.

Strong IT Infrastructure

We have successfully managed our growth by investing in infrastructure, including human and IT infrastructure. We being an apparel manufacturer and retailer understand that the key to succeed in the long term is to invest in software. We use specially-designed software to maintain our sales, records and outlet inventories. All daily transactions at our outlets are updated through pooling of incremental data of transactions. Our head office thus maintains full control on all the stocks and sales on a daily basis. We are using Wizapp3S and SQL software to keep track of our retail operations and help in inventory control.

Other Instructions

Joint Bids in case of Individuals

Bids may be made in single or joint names (not more than three). In the case of joint Bids, all payments will be made out in favour of the Bidder whose name appears first in the Bid cum Application Form or Revision Form. All communications will be addressed to the First Bidder and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Bids

A Bidder should submit only one Bid cum Application Form (and not more than one) for the total number of Equity Shares required. Two or more Bid cum Application Forms will be deemed to be multiple Bids if the sole or first Bidder is one and the same. It is clarified, however, that Bidders shall have the option to make a maximum of three Bids in the Bid cum Application Form and such options shall not be considered multiple Bids.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

After Bidding on an ASBA Bid cum Application Form either in physical or electronic mode, where such ASBA Bid has been submitted to the Designated Branches of SCSBs and uploaded with the Stock Exchanges, an ASBA Bidder cannot Bid, either in physical or electronic mode, on another ASBA Bid cum Application Form or a non-ASBA Bid cum Application Form. Submission of a second Bid cum Application Form, whether an ASBA Bid cum Application Form, to either the same or to another Designated Branch of the SCSB, or a Non-ASBA Bid cum Application Form, will be treated as multiple

Bids and will be liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the ASBA Bidder can revise the Bid through the Revision Form, the procedure for which is detailed in “—*Build up of the Book and Revision of Bids*” above.

More than one ASBA Bidder may Bid for Equity Shares using the same ASBA Account, provided that the SCSBs shall not accept a total of more than five ASBA Bid cum Application Forms from such ASBA Bidders with respect to any single ASBA Account.

Our Company reserve the right to reject, in their absolute discretion, all or any multiple Bids in any or all categories. In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple Bids are provided below:

1. A check will be carried out for the same PAN. In cases where the PAN is same, such Bids will be treated as multiple Bids.
2. Further, in the case of Mutual Fund Bidders and FII sub-accounts, Bids which use the same PAN, the Bid cum Application Forms will be scrutinised for DP ID and Beneficiary Account Numbers. In case such Bid cum Application Forms bear the same DP ID and Beneficiary Account Numbers, these will be treated as multiple applications.

‘PAN’ or ‘GIR’ Number

Except for Bids on behalf of the Central or State Government, residents of Sikkim and the officials appointed by the courts, the Bidders, or in the case of a Bid in joint names, each of the Bidders, should mention his/her PAN allotted under the I.T. Act. In accordance with the SEBI ICDR Regulations, the PAN would be the sole identification number for participants transacting in the securities market, irrespective of the amount of transaction.

Any Bid cum Application Form without the PAN is liable to be rejected. It is to be specifically noted that Bidders should not submit the GIR number instead of the PAN as the Bid is liable to be rejected on this ground.

Right to Reject Bids

In case of Non-Institutional Bidders and Retail Individual Bidders, our Company have a right to reject Bids based only on technical grounds and/or as specified in the Prospectus. In case of QIB Bidders Bidding in the QIB Portion, our Company, in consultation with the members of the Syndicate, may reject Bids provided that such rejection shall be made at the time of acceptance of the Bid and the reasons for rejecting the same shall be provided to such Bidder in writing. Consequent refunds shall be made through any of the modes described in the Prospectus and will be sent to the Bidder’s address at the Bidder’s risk.

Subsequent to the acceptance of the ASBA Bid by the SCSB, our Company would have a right to reject the ASBA Bids only on technical grounds and/or as specified in the Prospectus.

Apart from mentioning the revised options in the Revision Form, the Bidder must also mention the details of all the options in his or her Bid cum Application Form or earlier Revision Form. The excess amount, if any, resulting from downward revision of the Bid would be returned to the Bidder at the time of refund in accordance with the terms of the Prospectus. With respect to ASBA Bids, if revision

of the Bids results in an incremental amount, the relevant SCSB shall block the additional Bid amount. In case of Bids other than ASBA Bids, the members of the Syndicate shall collect the payment in the form of cheque or demand draft if any, to be paid on account of the upward revision of the Bid at the time of one or more revisions. Method of Proportionate Basis of Allotment in the Issue

In the event of the Issue being over-subscribed, our Company shall finalise the basis of Allotment in consultation with the Designated Stock Exchange. The Executive Director (or any other senior official nominated by them) of the Designated Stock Exchange along with the BRLM and the Registrar to the Issue shall be responsible for ensuring that the basis of Allotment is finalised in a fair and proper manner.

The Allotment shall be made in marketable lots, on a proportionate basis as explained below:

- (a) Bidders will be categorized according to the number of Equity Shares applied for.
- (b) The total number of Equity Shares to be allotted to each category as a whole shall be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio.
- (c) Number of Equity Shares to be allotted to the successful Bidders will be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio.
- (d) In all Bids where the proportionate Allotment is less than 50 Equity Shares per Bidder, the allotment shall be made as follows:
 - The successful Bidders out of the total Bidders for a category shall be determined by draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and
 - Each successful Bidder shall be allotted a minimum of 50 Equity Shares.
- (e) If the proportionate Allotment to a Bidder is a number that is more than 50 but is not a multiple of one (which is the marketable lot), the decimal would be rounded off to the higher whole number if that number is 0.50 or higher. If that number is lower than 0.50, it would be rounded off to the lower whole number. Allotment to all in such categories would be arrived at after such rounding off.
- (f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares allotted to the Bidders in that category, the remaining Equity Shares available for Allotment shall be first adjusted against any other category, where the allotted shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment will be added to the category comprising Bidders applying for minimum number of Equity Shares.

Hence Bidders are advised to immediately update their bank account details as appearing on the records of the Depository Participant. Failure to do so could result in delays in dispatch of refund order or refunds through electronic transfer of funds, as applicable, and any such delay shall be at the Bidders' sole risk and neither our Company, the Registrar to the Issue, Escrow Collection Bank(s), Bankers to the Issue nor the BRLM shall be liable to compensate the Bidders for any losses caused to the Bidder due to any such delay or liable to pay any interest for such delay.

In case of Bidders who remit money through Indian Rupee drafts purchased abroad, such payments in Indian Rupees will be converted into US Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and will be dispatched by registered post or if the Bidders so desire, will be credited to their NRE accounts, details of which should be furnished in the space provided for this purpose in the Bid cum Application Form. Mode of making Refunds for Bidders other than ASBA Bidders

The payment of refund, if any, for Bidders other than ASBA Bidders would be done through various modes in the following order of preference:

1. NECS – Payment of refund would be done through NECS for Bidders having an account at any of the centres specified by the RBI. This mode of payment of refunds would be subject to availability of complete bank account details including the MICR code from the Depositories. The payment of refunds is mandatory for Bidders having a bank account at any of the abovementioned centres, except where the Bidder, being eligible, opts to receive refund through direct credit or RTGS.
2. Direct Credit – Bidders having bank accounts with the Refund Bank(s), as mentioned in the Bid cum Application Form shall be eligible to receive refunds through direct credit. Charges, if any, levied by the Refund Bank(s) for the same would be borne by our Company.

Charges, if any, levied by the Bidder's bank receiving the credit would be borne by the Bidder.
4. National Electronic Fund Transfer (“NEFT”) – Payment of refund shall be undertaken through NEFT wherever the Bidders' bank branch is NEFT enabled and has been assigned the IFSC, which can be linked to an MICR code of that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date prior to the date of payment of refund, duly mapped with an MICR code. Wherever the Bidders have registered their MICR number and their bank account number while opening and operating the demat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of refund will be made to the Bidders through this method. The process flow in respect of refunds by way of NEFT is at an evolving stage and hence use of NEFT is subject to

operational feasibility, cost and process efficiency and the past experience of the Registrars to the Issue. In the event NEFT is not operationally feasible, the payment of refunds would be made through any one of the other modes as discussed in this section.

Strengths

- Established discount brand in the domestic apparel market with a diversified product portfolio for men, women and kids
- Wide network of exclusive retail outlets across metros, Tier I and Tier II cities in India
- Proposed manufacturing facility to reduce dependence on third party manufacturers and improve profitability
- Healthy financial profile with steady growth and improvement in operating profitability in the past
- Experienced promoters with around two decades of experience in the garment industry
- Favourable demand outlook for the organized retailing in the country

Concerns

- Aggressive expansion plans may put pressure on the operating profitability as the company might adopt pricing strategy to gain market share in newer regions; increase in fixed costs such as rentals to have an impact on operating profitability
- High working capital intensity coupled with rapid expansion in the past had resulted in negative fund flow from operations; this is likely to continue over the medium term as the company plans to scale up quickly by opening new stores and adding new product lines
- Successful expansion of the retail network would be dependent on the ability to scale up and effectively manage the supply chain, especially given the high inventory requirements
- Highly fragmented and competitive market, dominated by the unorganized sector
- Rising yarn and fabric prices could put pressure on the profitability of the company given the fragmented nature of the industry and vulnerability of retail sales to economic trends

Grading Rationale

The IPO grade assigned by ICRA reflects CRIL's established position in the domestic discount apparel market through its *Cantabil* and *La Fanso* brands, diversified product range and a widespread pan India distribution network. CRIL had reported strong growth and improvement in the profitability in the past driven by expansion of its retail network, diversification of the product range and commencement of in-house manufacturing for men's wear. CRIL has aggressive expansion plans of expanding its retail network which coupled with positive outlook on the apparel retail sector and strong brand equity of its products, is expected to result in healthy growth in the revenues. CRIL is planning to set up a new manufacturing facility in Bahadurgarh (Haryana) which would reduce its dependence on third party manufacturers and consolidate some of its existing manufacturing facilities in the proposed integrated complex. The grading also takes into account the strength of the management that has over two decades of experience in the garment industry. The grading is however constrained by CRIL's vulnerability to adverse economic conditions like weakness in consumer spending, volatility in lease rentals and growing competitive intensity in the domestic apparel retail segment which is highly fragmented. The grading also takes into the account the company's plan of increasing the number of retail stores, especially in areas where it has relatively less presence which might keep its profitability under pressure as the company might pursue pricing strategy to create brand awareness and establish its product in the market. ICRA notes that the successful expansion of the retail network is dependent on the ability of the company to scale up and effectively manage its supply chain, especially given the high inventory requirements. The high working capital intensity coupled with rapid growth in the past, had resulted in the negative cash flows from operations and this is likely to continue in the medium term as the company plans to scale up quickly by opening new stores and adding new product lines.

Company Profile

CRIL was originally incorporated as Kapish Sales Pvt. Ltd. in February 1989. The name of the company was subsequently changed to Kapish Products Pvt. Ltd. in May 1995. Kapish Products Pvt. In 2000-01, it started designing and manufacturing of readymade garments for men which were retailed under the *Cantabil* brand by another promoter company, Cantabil International Pvt. Ltd. In October 2008, Cantabil International Pvt. Ltd. was merged into Kapish Products Pvt. Ltd. with effect from April 2007. The name of the company was subsequently changed to Cantabil Retail India Pvt. Ltd. in March 2009. The company was converted into a public limited company and the name was changed to Cantabil Retail India Ltd in August 2009.

Business and Competitive Position

Established discount brand in the domestic apparel market targeting middle income segment; positioned as a family store with a diversified product portfolio for men, women and kids; men's wear accounts for more than 80% of the total volume sales

CRIL has been involved in the retailing of branded apparels under the brand *Cantabil* since 2000-01 and is an established brand in the domestic market. The brand is positioned to target the middle income segment and has a strategy of offering discounts in the range of 50-70% throughout the year to the customers.

Though CRIL started with men's wear, over the years the company has diversified its product portfolio and currently offers a wide product range for men, women and kids. The women's wear was launched by the company in 2007-08 and the kid's wear was launched in 2008-09. Moreover, the company launched another brand *La Fanso* in 2008-09 which exclusively offers only men's wear in the lower to middle income segment.

Men's wear accounts for more than 80% of the total volume sales

The table below shows the distribution of the total volume sales of the company from men's, women's and kid's wear over the last two years:

	2007-08		2008-09	
	Cantabil	La Fanso	Cantabil	La Fanso
Men's wear	87%	-	84%	96%
Women's wear	5%	-	7%	-
Accessories	8%	-	7%	4%
Kid's wear	0%	-	1%	-
% of total sales	100%	0%	75%	25%

All the sales in the domestic market through Exclusive Brand Outlets (EBOs)

The focus of the company has been on the Northern and Western regions of the domestic market which together accounted for ~85% of sales of the company in 2009-10. The remaining 15% of its total sales was from the South, Central & Eastern regions. The readymade garments are retailed only through the company's Exclusive Brand Outlets (EBOs) under two exclusive chains of EBOs for *Cantabil* and *La Fanso* brands respectively. CRIL believes that the EBO model helps it to reach directly to the customers and provides it more flexibility in brand promotion and inventory management.

The company operates its EBOs under the following two models:

Company Owned Franchisee Managed (COFM): While these outlets are either owned or leased by the company, the control to manage is given to a local franchisee. The operational expenses such as salaries, electricity, stationery etc. are borne by the company and the franchisee is responsible for the overall operations of the outlet. The franchisee is paid certain percentage as commission on sales depending on mutually agreed terms.

Franchisee Owned Franchisee Operated (FOFO): These outlets are either owned or leased by the franchisee. The operational expenses such as salaries, electricity, stationery etc. are borne by the franchisee and who is paid certain commission on sales depending on mutually agreed terms.

The following table shows the distribution of the EBOs of *Cantabil* and *La Fanso* under the two models (as of August 31, 2009):

No. of EBOs	Cantabil	La Fanso	Total
COFM	107	14	121
FOFO	99	161	260
Total	206	175	381

Strong network of EBOs in Northern and Western India across metros, Tier I and Tier II cities

Though the company has a pan India presence, it has a strong network of EBOs in Northern and Western India. Out of the total 381 EBOs (including both of *Cantabil* and *La Fanso*) as on August 31, 2009, ~61% of them are in Northern India followed by Western India which accounts for ~28% of the total EBOs. The company has limited presence in Eastern, Southern and Central India which accounts for 7%, 2% and 2% respectively of the total EBOs.

CRIL has a retail network across metros, Tier I and Tier II cities which has helped the company to diversify its market and consumer base. As a result, the company was relatively insulated from the economic downturn due to its diversified presence across Tier II and Tier III cities.

Mix of in-house and outsourced manufacturing with less than half of the total requirements manufactured in-house

The company has two manufacturing and one finishing facility in Delhi with an in-house installed capacity of manufacturing 10.8 lakh pieces of men's wear (casual trousers, shirts and denims) and finishing capacity of 30 lakh pieces of men's, women's and kid's wear per annum as on August 31, 2009. Due to limited in-house production capacity, the company outsources ~50-60% of its total requirement to third party manufacturers. The manufacturing of woven garments such as trousers, shirts, blazers etc are outsourced on a job work basis where the company supplies the fabric and accessories along with the garment sample to the manufacturers who provide the stitched garments back to the company, which is then finished at the company's facilities. The finishing operations involve cutting of threads, pressing, attaching of buttons, packaging etc.

Hosiery garments such as sweaters, jackets, track suits and accessories such as belt, tie, sock and handkerchief are purchased in finished and packaged form from third party suppliers as per the designs and specifications provided by the company.

The company currently does not have facilities for washing and embroidering and therefore uses the services of vendors for the same. The company is setting up a garment washing unit in Sonipat (Haryana) at an investment of Rs. 2.2 crore which is expected to commence operations by December 2010. This facility would make the company self sufficient for washing of cotton shirts, trousers and soft denims.

Aggressive plans to expand the retail network and set up a new integrated manufacturing facility; expansion to be funded entirely through IPO proceeds

The company has aggressive plans of expanding its retail network both geographically and in terms of number of EBOs which would be a mix of both COFM and FOFO stores. The IPO proceeds would be utilized to open ~180 COFM EBOs over the next couple of years. According to the company, as fast developing smaller towns which are currently under served, offer good scope for the company's brands, it plans to have atleast 20% of its new stores in Tier II cities and towns. Moreover, as the company has limited presence in Southern and Eastern India, it plans to expand in these regions to have a strong pan India presence.

Though an expansion in the retail network would help the company to diversify and increase the customer base, any decline in the profitability due to higher discounts to push sales or deterioration in the working capital intensity due to aggressive expansion, could be key sensitivities going forward.

In view of the strong growth projected by the company, CRIL is planning to set up a new integrated manufacturing facility for woven garments in Bahadurgarh (Haryana) which would reduce its dependence on third party manufacturers, though the company plans to maintain a healthy mix between in-house and outsourced manufacturing. Post commissioning of the new facility, the total in-house capacity of the company would be increased from ~10.8 lakh pieces per annum (as on August 31, 2009) to ~54 lakh pieces per annum. The finishing capacity would also be increased from 30 lakh pieces per annum to ~73 lakh pieces per annum.

Though the new manufacturing facility would reduce the company's dependence on third party manufacturers and consolidate its operations, any delay in the commissioning of the project might result in cost overrun or variation in the actual cost compared to that of the management's estimates (as the project is not appraised by any external agency), might result in dependence on external funds if internal accruals are not sufficient to fund the gap. Moreover, the company also faces execution risk as it has not executed similar sized project in the past.

Intense competition in the domestic apparel market; economic downturn and volatility in fabric prices and rentals to impact the sales and profitability

The domestic apparel market is highly fragmented, dominated by a number of retailers both in the organized and the unorganized sector. The presence of several Indian and international apparel brands in the marketplace has resulted in intense competition in the organized domestic apparel industry.

Moreover as the revenues of the company are dependent on retailing of apparels to its customers, any economic slowdown may affect the spending power of its customers and restrict their expenditure, thereby negatively impacting the revenue and profitability of the company. In addition, any significant increase in the raw material prices, such as that of fabric, could have an adverse impact on the operating profitability given the limited ability of the company to completely pass on the hike in the costs due to intense competition and fragmented nature of the industry. The company is also exposed to the volatility in the rentals which constitutes one of the major fixed costs for the company.

the introduction of women's wear in 2007-08 and kid's wear in 2008-09. In 2008-09, CRIL also launched another brand, *La Fanso*, exclusively for men.

The operating profit margin had increased from 10.6% in 2007-08 to 15.5% in 2009-10 as the company commenced in-house manufacturing of garments from 2008-09 and shifted to bigger outside garment manufacturers which resulted in cost benefits on account of economies of scale. The relatively smaller increase in the net profit margin from 4.1% in 2007-08 to 7.3% in 2009-10 was due to increase in depreciation and interest expenses on account of debt funded expansion.

ROCE and RONW had been healthy at 40.2% and 66.5% respectively as on March 31, 2010. The decline in RONW during the period 2007-09 was due to decline in net profitability due to increase in proportion of interest and depreciation expenses on account of debt funded expansion of retail stores and setting up of in-house manufacturing facilities which increased the capital assets, though the benefits started accruing only from 2009-10.

The working capital intensity of the company had been high and had averaged ~39% over the last three years. The company gets a credit period of ~90-120 days for purchase of fabrics, accessories and from third party manufacturers and suppliers of finished garments (hosiery products). The company offers some credit to its franchisees, which is reflected in debtors of 60 days as on March 31, 2010.

The inventory days for the company are high at ~435 days as on March 31, 2010. The company maintains an inventory of ~1 months of raw materials (fabric and accessories) and has ~ 3 months of Work in Process inventory. Moreover the company maintains ~4 months of inventory of finished goods at its warehouse and ~3 months of inventory at its stores. According to the company, maintaining high inventory of finished goods at the warehouse is required so that the company is able to supply to the new stores immediately as they are opened. Considering that the company had been opening new stores at a very fast rate, high inventory of finished goods is thus being maintained by the company at its warehouse.
